Due upon arrival at Market

Only full season vendors will be guaranteed a space. Assigned spaces are limited to the first vendors to commit to a full season and pay for it. *Full season Vendors will take priority over Weekly Vendors on days the Market configuration must change.*

No Call No Show

What do we do when a regular vendor Doesn't notify us they are not coming and doesn't show up? We give their spot to someone else and if they are a regular vendor they lose the money they paid for that day. We will pick someone else to take their spot from a list. The list will be in order of who signed up first and we will go down the list asking vendors if they would like the regular vendors spot. If they are not interested or not there we keep going down the list until someone is chosen.

Regular isn't coming

What do we do with a regular vendor's spot when they notify us in advance that they won't be attending the market that weekend? We will pick someone else to take their spot from a list. The list will be in order of who signed up first and we will go down the list asking vendors if they would like the regular vendors spot. If they are not interested or not there we keep going down the list until someone is chosen.

How will the spots be chosen?

The spots will be assigned by the board based on two considerations. The first being who sent their vendor application in and in what order, and the second being what product you sell. Things like produce and dairy will be placed first in order to increase their visibility. At the end of the day we appreciate our non food vendors the same as our food vendors but we understand that the local produce is vital to the community and what a lot of our patrons come for.
